RETRACTION

It was brought to our attention that, unfortunately, the species of our note was misidentified. It is in fact *Senticolis triaspis* (Cope, 1866). Therefore, the first record of *Pseudelaphe flavirufa* for the Municipality of San Bartolo Coyotepec and for the floristic-faunistic area number 6 (Valles Centrales) of Oaxaca are no longer valid, as well as the new elevation record.

We apologize for our mistake.

The authors.
